

Reduce shrinkage. Investigate faster. Recover more.

Discover how LP teams in retail are reducing theft and boosting recovery with Solink.

Solink combines cloud video security with intelligent data to speed up investigations, reduce shrinkage, and recover lost revenue. You get real-time visibility, remote access, and actionable alerts - all without replacing your existing hardware.

Solink ROI by numbers

Shrink the shrink

Theft and loss-related incidents dropped from 8.64 to 4.27 per month, cutting losses by **51%** on average.

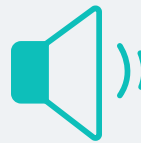

Close cases faster

Investigation time for loss and theft-related incidents fell **64%** from 6.55 to 2.36 hours, saving \$2,500+ in labor per location annually.

Stop losses before they snowball

Faster theft recovery and investigation saved retail businesses **\$700+** per month - **\$8,000+** per year.

Less noise, more confidence

False alarms dropped **50%** from 7.32 to 3.64, saving \$3,600 annually in dispatch costs and disruptions.

Total ROI: \$18,000+ in annual savings

From reducing theft and false alarms to cutting IT workload and travel time, Solink delivers real, measurable impact. It's estimated, on average, our customers save \$1,500+ per month for each store - that's more than **\$18,000 per year for each location** - by streamlining operations, protecting assets, and making smarter, faster decisions.
