

# Smarter stores. Streamlined operations. Faster results.

See how retail operations leaders are saving time and cutting costs with Solink.

Solink's cloud video security and analytics platform helps operations teams get ahead of issues before they escalate, streamline store management across locations, and cut down on time-consuming manual processes. Gain more visibility and a smarter way to run your business.

## Solink ROI by numbers

### Spend less time on investigations

Time spent investigating incidents dropped **64%** on average, from 6.55 to 2.36 hours per case, saving \$2,500+ in labor annually.

### More time on-site... without being on-site

Retailers reduced in-person audits by **64%**, minimizing disruptions and travel costs.

### Turn site visits into rare exceptions

Monthly health and safety checks fell **35%** from 2.32 to 1.50, saving \$1,500+ annually in time and wages.

### Act faster when it counts

Average emergency response time improved **32%** from 27 to 18 minutes.

## Total ROI: \$18,000+ in annual savings

From reducing theft and false alarms to cutting IT workload and travel time, Solink delivers real, measurable impact. It's estimated, on average, our customers save \$1,500+ per month for each store - that's more than **\$18,000 per year for each location** - by streamlining operations, protecting assets, and making smarter, faster decisions.
